M360

Flat desktop RFID reader

TracTech's flatbed reader is a portable and lightweight option for RFID jewelry inventory needs. It is about as thin as most tablets on the market, with the speed and accuracy to read tags. With the M360 you can manage inventory in a fraction of the time it takes to scan bar codes. Perfect for memos, billing, and shipping.

Features:

- Weighs about a pond
- Thin and Portable

Dimensions:

- 14″ x 10″
